

Stevens Center for

## Corporate and Professional Education

**“The illiterate of the 21st Century are not those who cannot read and write but those who cannot learn, unlearn and relearn.”**

*Alvin Toffler, writer and futurist*

Let us partner with you to build custom education and training programs that help your employees master the unique business and technical challenges facing your organization today and in the future. Our approach draws together distinguished experts in business, technology, science and engineering and taps Stevens' renowned spirit of innovation entrepreneurship to create a learning experience tailored to your specific business needs.

Our programs can help professionals in your company advance their careers, focus their expertise, qualify for new certifications or achieve new business objectives. Students in these programs acquire knowledge and skills, develop leadership capabilities and form productive new business relationships.

The format is flexible. We can create courses lasting a day, a week or as long as you need. They can take place on campus, online, on-site at your

company or at off-site facilities. Often, our corporate partnerships evolve into ongoing alliances that include internships and customized research projects with Stevens' faculty and our 12 internationally recognized research centers.

Stevens has a proud history of working closely with public and private sector organizations to confront some of the world's most formidable business, technical and scientific challenges. Through the Center for Corporate and Professional Education, we can serve your organization's education, research and talent development needs to help you thrive in an increasingly complex and uncertain world.

**S**tevens Institute of Technology, The Innovation University®, is a premier, private research university situated in Hoboken, N.J. overlooking the Manhattan skyline. Founded in 1870, technological innovation has been the hallmark and legacy of Stevens' education and research programs for more than 140 years. Within the university's three schools and one college, more than 6,800 undergraduate and graduate students collaborate with more than 380 faculty members in an interdisciplinary, student-centric, entrepreneurial environment to advance the frontiers of science and leverage technology to confront global challenges. Stevens is home to three national research centers of excellence, as well as joint research programs focused on critical industries such as healthcare, energy, finance, defense, maritime security, STEM education and coastal sustainability. Stevens is in the midst of a 10-year strategic plan, The Future. Ours to Create, designed to further extend the Stevens legacy to create a forward-looking and far-reaching institution with global impact.

## Corporate Educational Partner Program

Stevens currently partners with companies, non-profit organizations and professional societies across the country, offering their employees new opportunities to engage in lifelong learning for career development while providing their employers with a more skilled and valuable workforce.

We offer degree programs and non-degree courses taught by faculty from across the university who explore the frontiers of business, technology and science from many perspectives. Through Stevens' Center for Corporate and Professional Education (CCPE), we can create custom education programs in partnership with your organization to apply Stevens' expertise to your unique training and business needs. Stevens offers options to help adult students balance busy professional, personal and study schedules. Study at Stevens' Hoboken, NJ or Washington, DC campuses, 100% online, or through custom delivery at your corporate site.

### Stevens Corporate Education Partner Program Benefits

- Earn a degree from any of Stevens graduate programs
- Develop custom learning solutions for your organization
- Maintain licenses and certifications with career focused programs
- Discounts on tuition and fees for graduate programs, workshops, professional development, and executive education courses
- Exclusive access to our Corporate Care Center for one-stop administrative services for working professionals (registration, billing, graduation requirements, etc.)
- Deferred billing options available to support tuition reimbursement policies
- No cost to your organization

### Dedicated Stevens Corporate Partner Contact

As a corporate partner, you will be assigned to a liaison that will support program implementation, logistics, applicant inquiries, evaluation, and future needs assessments. The liaison will work with your staff to provide events that cater to your workforce development needs, guide employees through the application process, and to find the program that best fits their career goals and your organization's needs. They can also connect expert Stevens' faculty to your organizations. Your liaison is available for:

- On Site Education Information Sessions
- Meet an Expert Lunch and Learn Programs
- General and Program Specific Webinars
- Evening Networking Programs with Faculty and Alumni
